

HIGH-PERFORMANCE BLENDER

With innovative high speed technology

Full power for green smoothies & more

ROMMELSBACHER

A kitchen pro with high-speed. Whether blending healthy 'green smoothies', creamy shakes and mixed drinks, or simply crushing ice – this high-performance blender convinces through always perfect results. The powerful 2 HP motor generates an extremely high rotational speed of up to 32,000 r.p.m. so that the walls of vegetable fibres and cells get crushed and precious nutrients and minerals are released. This gives smoothies an especially fine texture. The big rotary knob permits an easy regulation of the six pre-set, electronically controlled programmes. Rotation speed and blending time can also be set individually. Cold and even hot food can be blended and puréed inside the high-quality blending jug made of break-proof Tritan® plastic material. High safety in use, easy handling and effortless cleaning – this appliance is a strong partner for a healthy nutrition!

Technical data:

- type: MXH 1500
- 230 V ~ 1500 W • black/silver
- powerful 2 HP motor with 1500 W
- big rotary knob with LED display
- 6 preset programmes
- separate Pulse/Ice-crush/Clean button
- individual setting of rotation speed and time
- strong, highly-effective 6-winged stainless steel blade
- blending jug for 2 l contents, of BPA-free Tritan® plastic material, especially shock- and break-proof, heat resistant
- detachable cover with refill opening
- pusher for a safe refill
- 4 rubber feet for a safe stand
- integrated cord take-up
- dimensions: 24 x 24 x 54.5 cm
