

ELECTRICAL ESPRESSO MAKER

Pure sensual delight!

ROMMELSBACHER

Who does not love to indulge in genuine Italian espresso? Therefore, the little brother of our EIPresso deLuxe was created. ROMMELSBACHER's espresso maker EIPresso mini is the perfect prerequisite for a 'dinner for two'. Its visual appearance by itself is already eye-catching: superb design, stainless steel finish and an ergonomically-curved stainless steel handle with heat-insulated synthetic material on the inside. No matter whether 4 cups or – because of the filter insert included in the delivery scope – 2 cups of espresso are prepared, it is easy and convenient to operate. Just insert water and ground espresso, replace the cordless jug on the power base, switch on and it will get going. As soon as the espresso is ready, the appliance will switch off automatically. Simply perfect!

Technical specifications:

- Type: EKO 364/E
- 230 V ~ • 365 W stainless steel
