

PREMIUM COFFEE MILL

with conical burr grinder
Quality for the perfect coffee experience

The EKM 600 Premium Coffee Grinder from ROMMELSBACHER combines attractive design with precise grinding technology – for a genuine barista experience at home. The high-quality stainless steel conical grinder offers 75 precisely adjustable grind settings – optimised from extra-fine for espresso to coarse for French press. At approx. 450 rpm, the grinder grinds in a way that preserves the aroma, evenly and pleasantly quietly. The robust metal gear with anti-block system guarantees durability and safety. Use is maximally flexible, as the coffee can be ground either into the powder container (BPA-free) or directly into standard portafilters. The electronically controlled grinding time can be set to 35 different levels, after which the grinder stops automatically. An LED light ensures good visibility in the working area, whilst the anti-static function neutralises static electricity in the ground coffee. Thanks to the modular grinding mechanism with a removable grinding stamp and detachable powder outlet, cleaning is particularly easy. Handy: the included bellows also removes residual powder – for a consistently full-bodied aroma. The EKM 600 offers a fully professional range of features for discerning coffee and espresso lovers.

Also for portafilter

Removing residual powder with the bellows

Modular design for easy cleaning

Technical specifications:

- Model: EKM 600
- 220–240 V ~ 150 W• anthracite
- precise setting of coarseness in 75 stages
- electronically controlled grinding time in 35 levels (3–60 seconds)
- also suitable for grinding directly into portafilter
- aroma-preserving grinding at approx. 450 rpm, particularly quiet
- robust, modular stainless steel conical grinder with metal gear and anti-block system
- removable BPA-free beans container (120 g) with locking system
- removable BPA-free powder container (90 g) with aroma seal
- grinding stamp and magnetic powder outlet removable
- clever: attachable bellows removes residual powder, with anti-static function
- 4 non-slip silicone feet, cord take-up, magnetic surface for accessories, LED light for perfect visibility
- Includes: 2 portafilter holders (51/54 and 58 mm Ø), 2 filling aids, bellows, cleaning brush
- EAN: 40 01797 010179

Anti-static function
