

## BAKING OVEN & GRILL

*with rotisserie spit & circulating air*  
A versatile & powerful all-rounder

This versatile baking oven & grill turns small kitchens and kitchenettes into a full-value kitchen. This appliance does everything that a standard baking oven can do and also is mobile. Thus it is quickly ready to be used as an additional appliance in the kitchen or on the terrace. The XL baking chamber allows baking tins up to 36 cm Ø. Seven different heating functions offer a variety of possible uses and the temperature can be infinitely adjusted. The BG 1620 even offers two grill functions and therefore can bake larger areas with a crispy gratin on the one hand, on the other hand it can also brown roast meat and chicken perfectly with the rotisserie spit. Depending on your needs, you can use this oven in individual continuous operation or select the convenient operation with timer (up to 90 minutes), with a signal sound reminding you that the timer has expired. The interior lighting and the large, double-glazed door ensure optimal control during roasting and baking. The energy-saving construction ensures a contemporary performance and energy efficiency as well as a short heat-up time. The high-quality enamelling of the baking chamber and the practical cover of the lower heating element reduce the effort involved in cleaning to a minimum. This is how to roast and bake today!

### Technical data:

- type: BG 1620
- 230 V ~ 1650 W • dark grey
- large 37 litres baking chamber with special coating, for baking tins up to 36 cm Ø
- usable dimensions ca. 39.5 x 38 x 20 cm (WxDxH), 3 inserting levels, interior lighting of baking chamber
