

Single and Double Cooking Plate

Quickly ready to use, various applications

The new stainless steel cooking plates in an elegant desk design are a timeless eye-catcher in every kitchen. Both models characterize by high operating comfort, they are quickly ready for use and offer varied applications. They can be used at home as additional cooking facility, in a single household, in the holiday apartment or in the office, meals can be prepared anywhere and in the smallest of spaces.

The temperature of the high quality cast iron heating plates can be continuously adjusted. A thermostat keeps the temperature constant at the set level. Overheating protection and pilot lamps also ensure safety in use. The stainless steel surface is easy to clean and timelessly elegant.
