

HAND VACUUM SEALER

handy, practical, fast

Freshness at the touch of a button –
preserving vitamins & flavour

ROMMELSBACHER

The cordless VAC 25 handheld vacuum sealer by Rommelsbacher makes vacuuming particularly easy and flexible! Food such as fruit, vegetables, meat or cheese is optimally packed in suitable containers and ZIP bags and stays fresh for much longer - nutrients and flavours are preserved. The powerful, quiet vacuum pump, automatic stop function and the power mode ensure perfect results. The cordless one-hand operation and 3-colour battery charge level indicator make the VAC 25 particularly convenient. The long-lasting lithium-ion battery enables up to 100 applications per charge and is easily rechargeable via USB-C - and can be replaced if necessary. The slim design fits in any drawer and cleaning is hygienic and easy thanks to the removable suction bell. Everything you need to get started is included - a 3-piece glass container set is available as an option. Clever storage instead of waste - sustainable, modern and practical!
