

# BUILT-IN COOKTOP DOMINO CERAN®

*with 15-minute safety shut-off*

Simple, safe & reliable – for sensitive environments

**ROMMELSBACHER**

This Domino built-in cooktop combines reliable technology with maximum safety. It has been specially designed for sensitive environments such as hospitals, senior residences, living units, student accommodations, daycare centres, military facilities, or living areas for people with disabilities – anywhere safety and ease of use are top priorities. Thanks to the integrated **15-minute operating time limit**, both cooking zones switch off automatically. Thus, the appliance ensures the highest level of safety. Ideal to prevent unintentional continuous heating and to save energy. The durable SCHOTT CERAN® cooking surface as well as powerful, energy efficient HiLight® heating elements allow for convenient and fast cooking. Thoughtful design details such as residual heat indication, an operating pilot light, and an easy-to-clean stainless-steel frame complete the high-quality overall appearance. Delivery includes installation kit and power cable with Schuko plug, ready for connection.
