

CONTACT GRILL *with table grill function*

Multifaceted grilling experience for gourmets

Whether in the kitchen or garden, on the balcony or terrace - this versatile contact grill is ready for grilling in just a few minutes. Thanks to the variable grill plates with the latest ceramic coating, this appliance is not only ideal for classic contact grilling, but also for gratinating and open grilling as a table grill:

- 'Contact grill' position: direct heat transfer ensures short cooking times, the food gets the popular grill marks.
- 'Gratinating' position: gratinating is quick and easy! Toasts, vegetables or meat cook perfectly.
- Open as 'table top grill': when opened, the grilling surface doubles; the temperature on each plate can be selected separately up to 230 °C and is kept constant.

This model is characterised by the use of high-quality materials (e.g. stainless steel with anti-fingerprint coating, PFAS-free ceramic coating of the grill plates), the well thought-out design and the flexibility of use. As the heating elements are integrated into the grill plates, best performance is guaranteed in every position. This contact grill is a practical all-rounder and indispensable helper for all who value a healthy, low-fat and versatile diet!

gratinating position

table top grill, up to 230 °C!

Technical data:

- type: KG 2025
- 220-240 V ~ 1830 - 2200 W • stainless steel/black
- easy-care casing with anti-fingerprint coating
