

COOKING PLATE STAINLESS STEEL *PRO*

*A professional appliance
"Made in Germany"*

ROMMELSBACHER

A professional appliance for quick and efficient heating of large cooking vessels. The extra large, durable cast-iron heating plate with a diameter of 220 mm provides for perfect heat distribution and is suitable for all kinds of pots. The temperature is power-controlled via a 7-step switch. Each switch position works with a certain power so that the temperature remains very constant and the appliance heats steadily independent of the pot's quality. Overheating protection, pilot lamp and anti-slip feet ensure safety during use.

The attractive casing made of brushed stainless steel brings professionalism to every kitchen; it is robust and durable, easy to clean and timeless in design. An attractive quality product of German make – not just for professionals!
