

Single and Double Cooking Plate

Quickly ready to use, various applications

These practical cooking plates with a silver metallic housing are a timeless eye-catcher in every kitchen. Both models characterize by high operating comfort, they are quickly ready for use and offer varied applications. They can be used at home as additional cooking facility, in a single household, in the holiday apartment or in the office, meals can be prepared anywhere and in the smallest of spaces.

The temperature of the solid cast iron heating plates can be continuously adjusted and is kept constant at the set level by means of a thermostat. Overheating protection and pilot lamps also ensure safety in use.
