

COFFEE MILL

with conical burr grinder

Professional grinding for full flavour

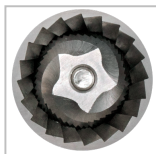

ROMMELSBACHER

This superior coffee mill with shapely plastic casing ensures always perfect grinding results. The effective conical burr grinder made of stainless steel grinds your coffee and espresso beans in the gentlest way. Operation is very simple; the appliance can be put into operation quickly by means of the on/off switch. The coarseness is set in 12 levels from fine (mocha, espresso) to coarse as necessary and the powder quantity can be selected in up to 10 doses. The removable beans tank has a flavour cover preserving the beans. The powder container is removable, too and thus, the freshly ground coffee powder can be taken out easily. For cleaning, the grinding block can be dismantled and additionally, a cleaning brush helps maintaining. The handy storage for cord not in use tops the conveniently simple and safe handling of this first-rate appliance. This premium coffee mill offers a lot of professionalism for demanding coffee and espresso lovers!

Achieved 'very good' in a German consumer test.
