# Stylish blending – the MX 1260 combines design and functionality

**Dinkelsbühl, 14 November 2025 – The new MX 1260 table blender from Rommelsbacher combines outstanding performance with quality and ease of use. With powerful 1200 watts and up to 22,000 revolutions per minute, it turns fresh fruit into creamy smoothies, crushes ice effortlessly and purées even hardest ingredients in no time. The innovative six-blade stainless steel knife and precise eight-step speed control ensure perfect results – from delicate soups to refreshing cocktails. Particularly noteworthy is the comprehensive fourfold safety system: GS-certified safety, operation only with the lid closed and jug correctly in place, plus motor overheating protection make the MX 1260 a reliable partner in any kitchen. Visually, the appliance impresses with its striking combination of a black body and elegant stainless-steel ring – a real eye-catcher on any worktop.**

A vitamin-packed smoothie in the morning, a velvety soup at lunchtime, a fruity shake in the evening – the MX 1260 accompanies you throughout the day with its versatility. Two automatic programs for smoothies and crushed ice take the work off your hands: simply press a button and the appliance does the rest. No complicated programme selection, no lengthy deliberation over the right setting – this is true easy-to-use functionality, as Rommelsbacher is known for. For those who want more control, there's the eight-step speed adjustment or the convenient pulse function for short, intensive blending intervals – delivering exactly the consistency you desire.

A key feature of the MX 1260 is its high-quality six-blade stainless steel knife. Its sophisticated geometry ensures all ingredients are optimally captured and evenly processed. Even frozen foods or fibrous ingredients are handled with ease. Particularly practical: the blade can be easily removed for cleaning – ensuring hygienic cleanliness without effort. The sturdy 1.5-litre glass jug offers ample capacity for the whole family and impresses with clear measurement markings and a drip-free spout. The refill opening in the lid allows ingredients to be added during operation, and the included tamper helps to push down contents when needed – for optimal results without interruption.

Safety is a top priority at Rommelsbacher. The blender features a fourfold safety mechanism that guarantees maximum operational security: the appliance only works with the lid closed and jug correctly positioned. An integrated overheating protection safeguards the motor against overload, and GS certification by the renowned SGS testing institute confirms comprehensive safety. Non-slip silicone feet ensure a stable stand, even at high speeds. This well-thought-out safety equipment makes the MX 1260 the ideal kitchen companion for any household – reliable, safe and durable.

Operation is intuitive and user-friendly: the large control knob with LED display fits comfortably in the hand and shows the selected setting at a glance. Visually, the MX 1260 impresses with its modern design featuring black housing and

a distinctive stainless-steel ring, giving the appliance an elegant, contemporary character. This appealing look makes it not only a powerful everyday hero but also a true eye-catcher. Fully detachable and easy to clean, the appliance is ready for use again in no time after each operation. Whether for your morning smoothie routine, creative experiments with new recipes or preparing healthy baby food – this table blender is equipped for every task. It combines powerful performance with a sophisticated safety concept, turning the preparation of fresh, healthy delights into pure pleasure.

The MX 1260 table blender from Rommelsbacher is a stylish kitchen companion for anyone who values quality, safety and versatility. The appliance is commercially available as of now at a price of € 99.99.

### About ROMMELSBACHER ElektroHausgeräte GmbH:

Our roots are in Stuttgart, where Dipl.-Ing. Gustav Rommelsbacher started his business in the year 1928 with the design and production of loudspeaker systems. He was an inventive genius with innovative ideas and the good instinct for the trends and needs of his time. After World War II, Dinkelsbühl/Germany became his new home. He started his production in a garage, with all materials he could get hold of, and made electric appliances which were urgently needed at that time. Radiators, electric irons and mobile cooking plates were manufactured under the brand robusta and soon delivered to many countries. The first brick-built factory was designed and expanded in the years that followed. His son, his daughter and his son-in-law joined the team and robusta became ROMMELSBACHER. In a spirit of great commitment, with high quality appliances and the strengths of a family-owned company, they developed a brand which is well-known for its first-class products.

In 1991, the third generation entered the business and in 1995, ROMMELSBACHER moved premises to a larger block of buildings which formed the perfect basis for further growth.

Modernization and expansion started in 2014, making the Dinkelsbühl/Germany premises fit for the future, since the fourth generation is already waiting in the wings.
