

# YOGURT MAKER

*for all types of natural yogurt*

Healthy yogurt just the way you like it

**ROMMELSBACHER**

Homemade yogurt is an important food for everyone who values a conscious and healthy diet and wants to avoid artificial additives and unnecessary packaging waste. If you would like to experiment with different yogurt cultures and types of milk, the *Joya* yogurt maker is the right choice. This yogurt maker has four programmes to choose from, so that the perfect temperature is available for every yogurt ferment and every desired yogurt product. Whether you prefer creamy, rather mild or firm and slightly sour yogurt or a refreshing yogurt drink is up to your personal taste. The processing of alternatives to cow's milk - animal or vegan, of course also lactose-free - is also possible. Up to 1000 ml of yogurt can be made in one pass. The maturing time can be adjusted manually up to 24 hours. During the countdown, the last hour is displayed to the minute, which makes it easier to plan the further processing of the yogurt. Well chilled, the yogurt prepared can be kept for up to a week and can also be used as base for further yogurt. The JG 60 is easy and safe to operate and its energy efficiency is high. *Joya* is also very variable when it comes to filling: whether with 8 portion cups or 2 glass containers or combined - it can be filled according to your needs. Thus, the *Joya* yogurt maker is perfect for everyone who would like to add variety to his conscious diet.

## Technical data:

- type: JG 60
- 230 V ~ 20 W • black
- easy-care plastic housing, transparent cover
- 4 programmes with different temperatures (36 / 39 / 42 / 45 °C), suitable for all yogurt cultures
