

MINI DEHYDRATOR

compact with maximum performance

Dehydrating: versatile, sustainable, smart & individual

ROMMELSBACHER

Healthy snacks that are easy to make yourself - even without a large kitchen! Our compact mini dehydrator offers maximum function in minimum space. With a dehydrating surface area of approx. 0.2 m² and 5 stainless steel trays, it is ideal for small households, food prep beginners or creative DIY fans. Whether apple crisps, fruit leather, beef jerky, muesli bars or natural materials for handicrafts - the possible uses are surprisingly versatile.

The little one is smart & efficient: despite its mini format, the appliance impresses with precise temperature control from 35 °C to 80 °C, optimum air circulation and quiet, energy-saving operation. Practical additional functions such as a 99-hour timer, keep warm function, LED interior lighting and an unheated mode for cooling or defrosting maximise convenience.

Dehydrating is natural & sustainable: Gentle dehydrating preserves vitamins and flavour - without any additives. The included accessories with muesli moulds, drying mat, filter fleece and a drying rack round off the smart overall package. The DA 450 is a versatile helper for healthy snacks, creative ideas and conscious nutrition - even in the smallest kitchen.
