

TABLE TOP GRILL

with two reversible grill plates

Pure grilling pleasure indoors and outdoors

ROMMELSBACHER

An electric table top grill in a class of its own, with plenty of power and outstanding materials for perfect grilling pleasure indoors and outdoors. Whether grilling on the ribbed BBQ surface or cooking on the flat Teppanyaki side of the two reversible grill plates – the results are always perfect and naturally low in fat thanks to the inclined plates. The grill plates are equipped with a modern, high-quality ceramic non-stick coating, which is PFAS-free. The temperature of the two plates can be regulated separately up to 230 °C, so that you can sear hearty steaks wonderfully hot, but also gently bake delicious pancakes. Convenience and safety are perfectly combined. The XXL power cord and the removable splash guard are just as impressive when it comes to handling as the infinitely variable temperature control with overheating protection when grilling. The BBQ 2025 is a mobile table top grill that will quickly become the best grilling friend in any household.
