

CERAN® GRILL

Elegance and Function!

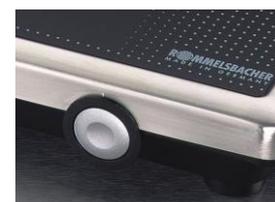

ROMMELSBACHER

Grilling on glass ceramic – an elegant and extraordinary variation. Enjoy the perfectly shaped design of the superior stainless steel casing, which is attractive to look at, easily cleaned and absolutely trendy. Grilling on glass ceramic – fat-free, healthy and versatile. Pamper yourself and your guests with steaks, sausages, fish, vegetables, fried potatoes, pancakes and other delicious dishes after your fancy. Enjoy the grill's powerful heating element featuring 2000 W, providing for the ideal grilling temperature in just a few minutes. The temperature control is infinitely variable via the energy regulator, to be activated using the retractable, and thus child-proof, knob. Furthermore, you can look forward to a pleasant finish, for both the handy scraper and the removable stainless steel fat-collecting channel allow for the appliance to be cleaned swiftly and without effort.
