

Ceran® SINGLE COOKING PLATE HiLight®

Remarkable & Made in Germany

ROMMELSBACHER

A 'HiLight®' of German make, standing out by its elegant design and high-end technology. Whether used as additional appliance in the kitchen or as a mobile cooking facility in offices, holiday flats or at the table – this Ceran® cooking plate impresses by its high utility value and the superior materials. The easy-care stainless steel casing and the original Schott Ceran® cooking surface offer high quality standards. The energy-saving HiLight® technology with its excellent efficiency provides for a short heating-up time. The temperature can be adjusted infinitely and the overheating protection, the pilot lamp and the residual heat indicator ensure perfect safety in operation. A very special cooking plate and a 'highlight' for the demanding household!
