

CERAN® DOUBLE COOKING PLATE

A cooking plate, elegant, energy-saving and always ready for use. Whether at home in the kitchen, perfect as additional appliance, in apartments or in the office, in the caravan or on the yacht. Highest ease of use when cooking or keeping-warm.

The casing is made of superior synthetic in the trend colour white. The double cooking plate is infinitely variable and features two heating zones: one with a diameter of 145 mm and one with 180 mm. HiLight® heating elements and energy regulators stand for energy saving. The cooking surface is made of original Schott Ceran® glass and thus very easy to clean. The shapely cooking plate, a first-class product of German make, can also be installed in worktops or combined in tandem position as 4-burner cooktop.
