

DEHYDRATOR

*Preservation by drying -
a timeless trend!*

ROMMELSBACHER

With this dehydrator you can easily conserve fruits, vegetables, mushrooms, or herbs in an optimal way. The heater fan provides for permanent active hot air circulation and the constant temperature for even results. Thus, taste, nutritive values and minerals are preserved – totally without chemical additives and sugar. The 3 power levels and the timer with automatic switch-off ensure perfect ease of use. The superior plastic casing convinces through easy cleaning and makes the practical appliance perfect. **The possibilities of use are manifold.** In addition to clever storage through drying, health-conscious and allergy sufferers use it to make individual ingredients for muesli, soups, and sauces. Those with a sweet tooth provide themselves with healthy snacks - from crunchy fruit chips to colourful fruit leather. Drying your own tea blends is also popular, as is making natural Christmas decorations from orange slices, for example. All year round one produces trekking food for on the way, or beef jerky as a hearty snack. Also dried meat treats for cats & dogs are popular applications of this dehydrator. Especially for meat-containing dehydrated goods, the dehydrator shelves with closed bottom are a perfect prerequisite for hygienic work. The DA 750 is a practical device that offers many applications for health-conscious households through all seasons.
