

SPIRAL SLICER

with 5 exchangeable blade sets

Vegetable pasta – quick, healthy, yummy!

ROMMELSBACHER

Healthy cooking is a trend where new, alternative ways of preparing food are getting increased attention. The electrical spiral cutter from ROMMELSBACHER is perfect for all those, who attach importance on a low-carb nutrition or simply want a healthier diet comprising more vegetables. Also people longing for more variety in the vegetarian or vegan kitchen, or parents who want to make fruits and vegetables more attractive to their children, are absolutely right with this variable appliance. And all those who like nicely arranged dishes or want to impress their guests, will love the various possibilities given by the different blade sets. The five exchangeable blade inserts cut 'vegetable noodles' in various pasta shapes (tagliatelle, linguine, spaghetti), which allow a healthy combination of pasta and vegetables. Fine radish spirals for a Bavarian style snack are also easy to make, as well as the popular potato spirals for deep-frying. Thanks to the extra-big collection container of BPA-free plastic material, it is possible to even process big quantities quickly and reliably. Various safety features make the handling safe and comfortable. Also the cleaning is very easy and quickly done: the unit can be disassembled and all detachable parts are dishwasher-proof. This is very convenient and one more plus factor for this contemporary appliance. With this valuable ROMMELSBACHER spiral slicer big cooking fun will enter everybody's kitchen!
