

BLADE COFFEE GRINDER

stainless steel

Always aromatic coffee treat

ROMMELSBACHER

A coffee grinder with powerful blade – perfect for quickly making a good cup of coffee with freshly ground powder. The casing and the blade of this chic appliance are made of superior stainless steel and are thus robust and easy to clean. The coffee beans are quickly processed by the 2-winged blade until the desired grinding degree is reached, which is individually adjustable in 7 levels (from fine to coarse). The grinding time is electronically controlled so that the appliance switches off automatically when the desired grinding degree is reached. This ensures that the results are always the same at every grinding process. Furthermore, the EKM 150 cannot only be used for grinding coffee beans, but also dried spicery like e. g. coriander, rosemary, caraway or sugar can be ground. Another advantage insofar as practical handling is concerned is that cord not in use can be stored in the integrated cord take-up.

stainless steel casing

Blade and bean container are made of stainless steel

Electronically controlled grinding time for steady grinding results

Separate on-button

Technical data:

- type: EKM 150
- 230 V ~ 150 W • stainless steel/black
- robust 2-winged blade made of stainless steel
- stainless steel bean container, capacity 40 g
- electronically controlled grinding time, adjustable in 7 levels
- automatic switch-off after the set time has elapsed
- separate on-button, pilot lamp
- safe and easy handling
- practical cord take-up
- dimensions (W x D x H): 9.8 x 10.5 x 20.5 cm
- EAN: 40 01797 862006
