

ELECTRIC KNIFE *with 2 sets of blades* An essential kitchen master

ROMMELSBACHER

The convenient electric knife by Rommelsbacher facilitates the daily work while cutting bread, cakes, meat and poultry. Due to the ergonomic handle, the appliance is easy and comfortable in use. The fine toothed blades are ideal to cut even sensitive food like cream cakes perfectly. The powerful motor and the additional rough toothed blades even allow the cutting of slightly thawed food. A long power cord, the easy-running release and blades with finger guards provide a safe handling. And cleaning is made easy – because both blade sets are suitable for the dishwasher.

simple handling

blades with finger guards

2 sets of blades for flexible usage
