

BABY'S CHANGING-TABLE RADIATOR

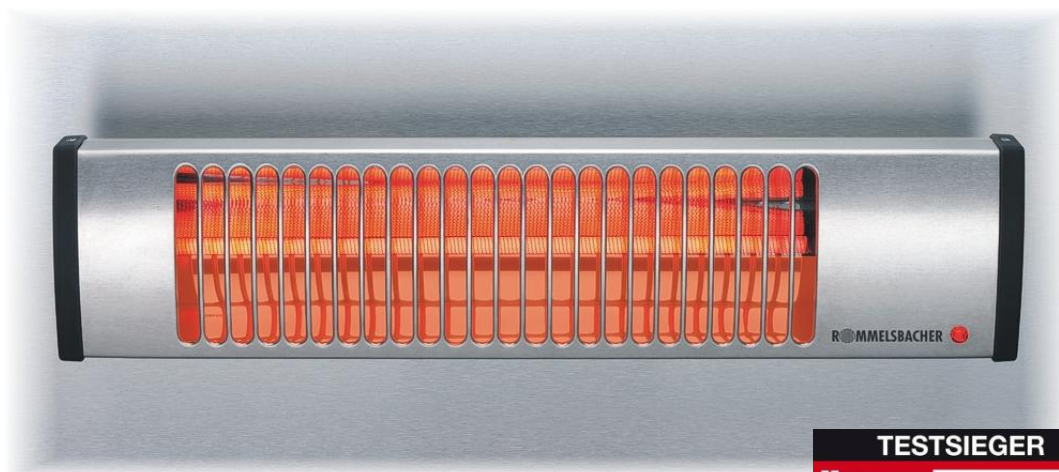

Cosy warmth – quick and safe

ROMMELSBACHER

Whether above the baby's changing-table or the baby's tub – immediate, safe infrared warmth ensures that babies will not freeze or catch a cold. Totally without pre-heating, the infrared radiation provides cosy warmth within seconds. For baby's absolute safety, the energy-saving quartz heating rod is coated with a protective hose. Furthermore, the appliance heats silently, without draught. The appliance is switched on/off very practically via pull switch and a pilot lamp provides further security in use.

The application field of this infrared heater is wide, also for shortly heating hobby rooms, entrance halls, bathrooms, winter gardens, sheltered terraces and balconies. It can be used wherever warmth is quickly needed. Just mount the radiator at a wall, pull the practical pull switch and the temperature rises quickly. The superior stainless steel casing makes the appliance look chic and in addition it is easy to clean. For safe wall mounting, suitable installation material is enclosed. The radiator's tilt angle can also be adapted afterwards if needed. Very practical!

Höchster Komfort für
Baby und Eltern
