

CONTACT GRILL

stainless steel

Multifunctional & robust for healthy grilling!

ROMMELSBACHER

Whether in your kitchen or garden, whether on balcony or terrace – within a few minutes this versatile contact grill is ready for use. The variable grill plate positions make this unit not only perfect for the classical contact grilling but also for gratinating and use as a table top grill.

- *Grilling in 'contact grill' position:* The direct heat transfer provides for a short cooking time; the grilled food gets the popular grill marks.
- *Toasting in 'gratinating' position:* Easy and quick baking au gratin of baguette, bread, vegetables or meat.
- *'Table top' grilling pleasure:* By opening the grilling surface gets doubled and in an instant the appliance can be used as a table top and party grill.

Superior materials, elaborate construction and easy operation characterise this model. The 5-step height adjustment in contact grill position allows matching the appliance to the thickness of the food to be grilled. The non-stick coated grill plates grant low-fat grilling in each position, excess fat drains off into the integrated drip pan. The grill plates can be removed and cleaned easily. This grill is a practical all-rounder and indispensable helper for those who set value on a healthy and tasty low-fat nutrition!
