

## ELECTRIC MULTI GRATER

*Always freshly grated ...*

# ROMMELSBACHER

The handy multi grater by Rommelsbacher grates hard cheese types like parmesan or Grana Padano easily and safely. Even baking chocolate and nuts can be rasped perfectly. The convenient battery operation facilitates the work, as the cordless grater is flexible in use because it does not require a wall socket. Furthermore, the nice design attracts everyone to take it to the table for grating cheese directly onto the pasta-dish. After grating, the drum compartment can be closed hygienically with a small lid so that residues cannot fall out. The operation is quite simple. Only one hand is needed to compress the handle and pressing the food on the grater drum. At the same time, the ON button at the underside is activated, whereby a safety switch provides for a safe use. Cleaning of the grater is very easy, as the stainless steel grater drum can be taken out. With this appliance, grating is real fun and cooking becomes more convenient!

*cheese directly grated  
at the table*

*safe handling*

*removable grater drum*

*lid to close the  
drum compartment*

### Technical data:

- **Type:** MR 6
- 2,4 V ~ 6 W • white
- handy battery operation - cordless use wherever needed.
- power battery (NiMH) with 1,800 mAh performance for long run time
- stainless steel grater drum, removable for easy cleaning
- lid to close the drum compartment
- ergonomic handle
- simple and safe handling
- convenient ON button
- integrated safety switch
- inclusive: 1 charger with power cord
- dimensions: 24.5 x 11.5 x 9 cm

*rated as a 'perfect  
gift' in a German  
consumer test*
