

MILK FROTHER

with removable glass jug

For your café at home

ROMMELSBACHER

Whether at home, in the office or the holiday flat – the milk frother MS 650 with removable glass jug is the perfect appliance for making milk froth, hot milk or milk beverages. It is very easy to prepare tasty coffee variations like in "Bella Italia".

Thanks to two removable stirring units, this milk frother has 6 functions: cold / warm / hot frothing or cold / warm / hot stirring; fine-pored, firm milk froth can be made quickly or a milk beverage can be stirred creamily and even heated if desired. The appliance is easy to operate by means of a sensor button and the illuminated display; it is switched off automatically. The attractive and solid glass jug accommodates large quantities. It is removable and cuts a fine figure on the coffee table. Its ergonomic handle ensures safe handling. Superior materials guarantee easy cleaning. Top in technology, design and user friendliness – a premium appliance fulfilling high demands.

Rated "very good" in a German consumer test for best frothing efficiency
