

RACLETTE GRILLS

Fashion

Swiss design – noble and elegant

ROMMELSBACHER

These raclette and grill appliances in Swiss design win over by their elegance and superior workmanship. The chrome-plated housing has a safe stand and is an eye-catcher on each table. On the ribbed grill plate meat, sausages, scampi, fish or vegetables come out perfectly, whereby grilled foods get the popular striped grilling marks. In the pans delicious snacks can be gratinated or spicy Raclette cheese melted. The infinitely-variable thermostat ensures temperatures can be set just right for all kinds of foods. And- the integrated parking surface allows for pans to be "parked" in the unheated area every time you take a break from eating. Both - grill plate and pans - feature a superior non-stick coating which ensures a convenient handling during grilling and an easy cleaning afterwards. The luminous diodes add modern chic to this elegant appliance and give each convivial eventing some extra glamour.

RCC 1000

RCC 1500

Technical data:
