

DOUBLE COOKING PLATE

High-quality product 'Made in Germany'

ROMMELSBACHER

Perfect as additional appliance in the kitchen, ideal for the office or the holiday flat, for cellars or arbours. This double cooking plate is characterised by a very nice design, functionality and high ease of use. The long-lasting genuine cast-iron heating plates are suitable for all kinds of cooking vessels and ensure an optimal heat distribution. The automatic cooking system heats each level with full power. The powerful version with 3000 W brings power into the kitchen; the small heating plate with 1500 W is a real express heating plate with an especially short pre-heating time. The shapely casing has a superior fire-enamelling and remains, thus, durably white, also after longer usage. This cooking plate is the right choice for price-conscious and nevertheless discriminating customers.
