

Cooking plates

Made in Germany

with appealing softline design

ROMMELSBACHER

Elegant design and reliable technology of German make – the cooking plates of this series will captivate you with their high utility value and great durability. Superior cast-iron heating plates are integrated in a white, fire-enamelled casing. The temperature regulation is power-controlled through 7-step switches. Each switching level features a particular power output so that temperatures are kept very constant and the appliance always heats very evenly, regardless of the materials the cooking vessels are made of. In addition an overheating protection, pilot lamps and non-slip feet provide for safety during use. This is the perfect complement to your kitchen and ideally suited for use in office, holiday home, basement or garden house.
