

# WAFFLE MAKERS

*for the small and big appetite*

Baking sweet & savoury waffle specialities

## ROMMELSBACHER

Sweet waffles are popular with young and old and, therefore, you can't think of coffee tables or Christmas time without them. Even the savoury waffle variants are becoming more and more popular since they are a perfect match for beer and wine. It is so easy to prepare these tasty snacks with the Rommelsbacher waffle makers. Regardless of the recipe, with the infinitely variable temperature regulation each degree of browning can be set and the baking lights help with the proper timing. And should you need larger quantities for your family, for larger groups or big appetites, we recommend model WA 1200 with a double baking area. Both models are equipped with a heat-insulated handle and integrated overheating protection, thus ensuring safe operation. Thanks to the superior non-stick-coating it is easy to take the waffles out and to clean the unit afterwards. Storing is convenient and even the large WA 1200 appliance needs only little place when put upright in the cupboard. There are so many reasons to take a decision for one of these attractive appliances!
