

STAINLESS STEEL CITRUS JUICER

Tasty vitamins, quickly squeezed

ROMMELSBACHER

Freshly squeezed juices taste best. No problem for Rommelsbacher's citrus juicer. The elegant stainless steel appliance squeezes the last drop out of oranges, citrons and grapefruits in no time thanks to the two differently sized press cones. Slight pressure is enough, the rest is taken over by the powerful motor. Perfect for the vitamin rush in between. The juice flows directly into the glass via a fold-out spout, the drip-stop ensures that no drop gets lost. The massive stainless steel strainer is removable and can be cleaned in the dishwasher together with the press cones, the juice container and the top cover.

Technical data:

- type: ZP 85/E
- 230 V ~ 85 W • stainless steel
- powerful, low-noise motor with 85 W
- direct juice supply via fold-out spout
- removable, massive stainless steel strainer
- drip-stop
- easy on/off-switching via press cone
- integrated cord storage
- all removable parts are dishwasher-proof
- including:
 - 1 press cone for large fruits
 - 1 press cone for small fruits
 - top cover
- dimensions: 22.5 x Ø 18.5 cm
- EAN: 40 01797 855107
